A country in conversation

An invitation to missions and diaspora organisations to create cultural, people and economic connections.

The invitation

Contribute a participatory country experience to the 2027 festival. The proposed Embassy Village and procession connect culture with people, trade, study and practical next steps.

Three contribution routes

Culture: food, music, art, stories or a guided experience.
People: diaspora, students, professionals and community networks.
Opportunity: a trade conversation, a study pathway or a MarketLink connection.

A useful activation

Choose one contribution story, one interaction visitors can take part in and one clear next step. Options include a cultural showcase, hosted dialogue, contribution to the shared procession or a themed conversation with suppliers or students.

Protocol and delivery

Nominate a mission liaison. Agree delegation details, country naming, flags, language, hosting, dietary and accessibility requirements, security needs, programme windows, production and permissions. Any food activation requires agreed delivery arrangements.

Status and next step

Organised by Tapiwa Chinyadza & Pamumvuri PVO, with the final festival day on 25 May 2027. Venue, capacity and any fees remain to be agreed. No embassy, government or international institution is represented as confirmed by this brief. Request an embassy contribution conversation.
