A guided school journey

Connect culture, identity, formation and contribution through a teacher-led festival experience.

The invitation

Schools, colleges and universities are invited to discuss structured cohort participation in the 2027 Welcomes & Thank Yous Festival. The intended experience links students with culture, practical wellbeing, alumni, mentors and responsibility.

The proposed route

Group arrival and orientation; a meaningful procession or cultural contribution; a guided Walkway visit; facilitated formation experiences; selected alumni or professional conversations; and an agreed school follow-up.

Useful learning outputs

A short reflection on identity and contribution, one practical habit to explore, an age-appropriate encounter with a role model, and a teacher-led next step. These are intended outputs, not guaranteed educational or clinical outcomes.

Planning information we need

Adult institutional contact; proposed age band; approximate cohort size; preferred contribution; teacher leads; transport plan; accessibility requirements; and a suitable participation window. Do not send student names, records or medical information through the general enquiry channel.

Before participation is confirmed

Agree capacity, timings, supervision, guardian consent where applicable, transport, safeguarding, photography permissions, fees and cancellation arrangements. These are to be developed with each school. The festival dates are confirmed as 23-25 May 2027; the venue remains unconfirmed.

Your next step

Ask for a school planning conversation. No booking or price is created by this expression of interest.
